PROFESSIONAL SUMMARY

Full-stack Developer specializing in React, Next.js, Node.js & TypeScript with experience building end-to-end web applications featuring JWT authentication, role-based access and REST APIs. Developed data-driven platforms using PostgreSQL, Prisma and integrated Python-based ML models into production systems. Strong foundation in DSA and backend system design.

EDUCATION

Bachelor of Technology (Computer Science)	2024 - 2028
Rishihood University, Newton School of Technology	Grade: 8.46/10.0
Intermediate (Class XII)	2023 - 2024
B.D.M.International School	Grade: 84.0%
Matriculation (Class X)	2021 - 2022
B.D.M.International School	Grade: 93.0%

INTERNSHIPS

Software Developer	May 2025 - August 2025
Plugseal Innovation Ltd.	Remote
- Developed 3+ responsive React Native UI screens for a FinTech app using reusable components and modular structure. - Documented 20+ REST APIs using Swagger UI for a solar startup, improving API clarity and faster API integration. - Developed a responsive landing page using React.js and Next.js, improving Lighthouse performance score by 15%.	

PROJECTS

Uber Dashboard (Github)	April 2026
A comprehensive and visually stunning Tableau dashboard analyzing a dataset of 50,000 Uber trips across 6 major cities. This project explores key metrics such as trip frequency, revenue distribution, and pricing dynamics to provide actionable insights into urban mobility patterns.	
Video Game Sales Dashboard (Github)	April 2026
A data analytics project focused on exploring global video game sales trends through data cleaning, exploratory analysis, and interactive Tableau dashboards. The project highlights regional market patterns, genre popularity, platform performance, and the relationship between game ratings and sales.	

CERTIFICATIONS

Certificate For Internship PlugSeal Innovations Ltd. (Link)	May 2025
Built React Native UI screens, React/Next.js landing pages, and Swagger UI API documentation for a FinTech startup.	
National Finalist in National Coding League Scaler School of Technology (Link)	June 2024
Qualified for the national round of the National Coding League (DSA) as part of a competitive 3-member team.	

SKILLS

Computer Languages: Machine Learning, Python, TypeScript, JavaScript, SQL

Data Tools: PostgreSQL

Software Packages: Pandas, Next JS, React Native, Tailwind CSS, Prisma ORM, React, Node.js, Excel, Express JS, MySQL, MongoDB

Others: Tableau, Analytics

EXTRA-CURRICULAR ACTIVITIES

- Led a 4-member team in the Rishiverse Hackathon (college-level), driving project planning, task allocation, and execution.
- Volunteered as a coordinator for a 100-student university Soul Trek program, managing coordination and supervision.
